A MESSAGE FROM SUPERINTENDENT MIGUEL A. GUERRERO

As we launch the 2021-2022 school year in a full traditional schedule, we are confronted with unique challenges due to the COVID-19 pandemic. While the worst of the COVID-19 devastation might be behind us, the pandemic is not nearly over. With several variants on the scene that are once again causing surges of new COVID cases, we cannot let our guards down. Now more than ever, we need to adhere to the state and county departments of public health guidelines to assure that students and staff are safe.

The Lamont Elementary School District has created a handbook that highlights all different layers that are being implemented to mitigate the spread of COVID-19 in our schools. A copy of this guide has been posted on our website www.lamontschooldistrict.org and are available at your child(s) school.

As you go through the handbook, you will see that we are asking students and staff to self-screen for COVID-19 symptoms before coming to school and that teachers and students are required to wear masks at all times while indoors. Also, effective this week, all students entering any of our campuses will be required to have their temperature checked. All of our health and safety procedures are outlined in this document and will be revised as needed throughout the school year. You will also receive information and instructions from your principal regarding any procedures or protocols specific to your child’s school site.

As the superintendent of the Lamont Elementary School District, I want to reassure you that we have taken all the necessary steps to align our safety protocols to the current state and federal guidelines. The physical, social, and emotional health and safety of our students is and always will be our top priority. Thank you for your continued understanding and support as we navigate through these unprecedented times.

Sincerely

Miguel A. Guerrero
Superintendent
